Part of Records Package / Supplement / Correction

I know we need a place to put all this waste. I do think we could have picked a much safer spot. There's enough evidence to show it could be unsafe at this particular spot. Most importantly, over a million people in Clark County do not want it transported here or placed within 100 miles of where we live. All of our government representative are strongly opposing this because we don't want it. Why are we getting this poison shoved down our throats?
